Overview

The LG Professionals SA Career Catalyst Program is designed for female leaders who want to build a strong leadership legacy and identity, without compromising their values, wellbeing or relationships.

The program equips participants with:

- ∴ a deeper understanding of their current professional terrain, and the skills and tools required to navigate it with resilience and authenticity
- ∴ skills to build an authentic 'leadership presence', communicate with clarity and increase workplace impact and influence
- ∴ an understanding of how gender dynamics can influence workplace, particularly leadership experience, and tried-and-tested tools to respond effectively to bias and double standards

Designed to be highly interactive with an emphasis on peer learning, the Career Catalyst Program is made up of a virtual orientation session, two-day in person workshop and three virtual implementation sessions, which provide ongoing accountability, the opportunity to troubleshoot, experiment, celebrate successes and share insights and support with co-participants.

Participants can expect to build:

∴ Career Courage

The skills to dial down your inner critic, build your workplace presence and profile, recover from setbacks and take action even when you feel fearful, awkward or uncertain.

∴ Career Clarity

The ability to articulate your unique combination of skills, strengths and needs, identify how to develop your capabilities and profile in your current role and plan for the next phase of your life and career.

∴ Career Confidence

The self-belief to make daily choices and bigger decisions based on your own values and priorities - not on gendered social norms, fear of the unknown or other people's expectations.

In addition, we are pleased to offer all participants complimentary access to the self-paced Hacks for Her Career Clarity Bootcamp – to support you in determining 'what's next?'
